

ROUND 1 INTERVIEW: KEVIN CHAPPELL
May 5, 2016

Q. I'm sorry you're not feeling well at all, but obviously you had an early bogey but six birdies after that. Just a couple comments on how long you've been feeling bad and how you pulled the round off?

KEVIN CHAPPELL: Woke up this morning, kind of had it coming out both ends and real achy and just didn't feel right. It went through like waves of like two hours of good and real bad. I had to relieve myself on the 10th hole there for a second. A medic actually gave me a shot that kind of helped with the queasiness. Golf-wise, my game's in a good place. It's been there for a few months. Been working hard with Mark Blackburn and Gabe Hjertstedt on my short game and it's paying off and that's what I relied on today.

Q. Any consideration of having to pull out?

KEVIN CHAPPELL: Yeah, on the 10th hole I had to let both guys hit and then take about five minutes before I played the hole, and I actually made birdie. They gave me an anti-nausea shot there on the 11th tee box. Well, behind the 10th green. That was an interesting experience. But yeah, I thought about it. I kind of told the medics that I needed them to tell me what signs I needed to be aware of and I was going to play until I dropped or just before I dropped, and luckily it didn't happen.
