

Q. Got to feel pretty good about the way you finished this week, top 10?

RICHARD LEE: Yeah, it's been a pretty rough two years, to be honest. I had surgery and I haven't played golf in a long time. So yeah, it's a very good, positive sign. It's finally a bright spot in a struggle for the last few years.

Q. What changed this week, what did you feel like was better? Anything you've been working on?

RICHARD LEE: The only thing I've been working on is trying to get into a rhythm during the round from the start. That's the only thing that I try to work with my caddie is just get in a rhythm and try our best not to get out of rhythm. It's been really working well and it kind of kept me just pretty consistent through the whole round.

Q. Another week, I'm sure you're glad to be able to play next week?

RICHARD LEE: Yeah.

Q. Do you keep the momentum going hopefully?

RICHARD LEE: Yeah, for sure. Yeah, I didn't expect it. Obviously it was in the back of my mind. I didn't want to think about it, but it was there. So nice to play well and kind of, you know, get there.

Q. What's kind of the plan for the last six months -- I mean the last six weeks before the FedExCup Playoffs?

RICHARD LEE: You know, honestly, man, every week comes around, I just -- off my medical I have two more starts left so hopefully I can carry on to another start. My ultimate goal is to obviously play well enough to get to the FedExCup Playoffs, but if not, just get to Web finals and have a chance because coming into this week I had a rough year. Like they say, a week changes a lot. So this week will push me to the next week where I can carry it forward and keep the momentum going.

Q. I was going to say do you feel like this could kind of be a week that defines the year?

RICHARD LEE: Yeah, for sure, it's definitely going to help. Like I said, I just haven't played well and it's been a really, really frustrating year. It's nice to kind of finish it off with the best round of the week on Sunday is always nice.
