

Q. Justin, great opportunity for you today. I know you're obviously disappointed, but as you look back what wasn't there for you today that has been for the previous three rounds?

JUSTIN THOMAS: Really just three holes, or four-hole stretch. DJ got me by I think five or six on 6 through 9. That's the golf tournament right there. If I don't double 7 there or bogey 8, there you go, I'm in a playoff. I'm really proud of myself. I fought back really hard. I still had a chance to win the golf tournament after 11 and 12 and I just really got a bad break there on 13 with kind of a spike mark there. You know, I fought back hard so I'm proud of myself.

Q. I want to ask you, I know you just walked out of scoring and you've got to calm down emotionally but do you take away from this the fact that you put yourself in position to win or the disappointment of not winning is an overbearing thought?

JUSTIN THOMAS: I think I was a little emotional at the beginning of day so I have that to learn from. But like I said, I calmed down and I was really, really comfortable when I got in the heat. Once I realized I had a chance again after 11 and 12, I was really excited. I started hitting good shots. I think it all just finally all caught up to me. I got away with some bad shots yesterday and I just was swinging it bad again today and it really got me. But I moved up in the FedExCup, so I'm just somehow look at it as a positive.

Q. Follow up on that, are emotions getting in your way at times for you?

JUSTIN THOMAS: I don't think so. It's reasonable to say, but when you're in the last group, you want to win. I'm as competitive as anybody and I want to get it done. The bogeys I made were bad, and especially 7 and 8, but it just wasn't my day. I didn't get the breaks I needed to get. DJ played great, he deserved it, but I just need to play a little better if I expect to win a golf tournament of this stature.
