

DANNY LEE (-21)

Q. Danny, fantastic battle today. It's not over yet, you don't know what Kuchar's going to do on 18, but starting the day as far back as you did, what did you think about your prospects coming in and what was your mindset?

DANNY LEE: I had no mindset, no game plan. I've been hitting it good the whole week and I know if I just (inaudible) I'm going to have a chance or get very close no matter what Matt was going to do or other players were going to do. It was kind of a little bit windier than the last three rounds we had. It was still very doable out there. If I just kept hitting it straight off the tee.

Q. Take me through the putt on 18, because I thought it looked like you hit your mark, it just didn't turn the way you thought it would.

DANNY LEE: Yeah, I really did hit it on my line on where I was looking, but it was a right edge putt all day and I didn't want to leave it short and I gave it a little extra, but sometimes it just happens, I guess.

Q. What a great birdie you made on 16, one of the few today.

DANNY LEE: Yeah, I wanted to hit 3-wood off the tee, but my caddie said 3-iron is plenty. But I told him if I hit 3-iron, I'm going to have to hit 3-iron again. He wasn't letting me hit 3-wood off the tee on 16. A little bit frustrated, but it worked out well.
