

ROUND 2 INTERVIEW
July 19, 2019

CULLAN BROWN (-4)

Q. Cullan, I know not the way you wanted to finish the round, but still a good day. If we can get some comments on your day.

CULLAN BROWN: No doubt, it was a good day all around. I was very fortunate to just strike the ball really well all day. Made a few bad swings and when I did I got penalized for it, but otherwise, fantastic day. Putted well. Obviously didn't want a bogey on 18, but it's part of it. It's a hard hole, I made a bad swing, it happens. So overall super happy with the day.

Q. As an amateur, how good does it feel to be in the hunt? I think you're like right on the fence right now for the cut. How much are you going to be paying attention to that and just how excited are you to be in a position like that?

CULLAN BROWN: Obviously we'll be paying very close attention to where it moves this afternoon and hopefully I can stay around for the weekend, that would be great. If not, still a great week. Sure, it's fantastic to be able to even have the opportunity to do something like that. You know, to know that my game is in a place where it can compete on a stage like this is fantastic.

Q. Condition-wise, how was it out there for you and the other guys you were playing with? I guess for everybody.

CULLAN BROWN: Oh, fantastic. The course is great. The course couldn't be better. It was a little breezy this afternoon, but it stayed solid, so it was good. It helped us down the finishing stretch for sure. We had a lot of holes downwind and that helped on the way in. And overall, like I said, the course is in great shape. Greens are smooth, no complaints there.

Q. What's it like as an amateur being able to measure yourself against the professionals?

CULLAN BROWN: It's such a fantastic opportunity. It's just the best opportunity that an amateur can get in the game of golf, to be able to see where their game is and where it needs to be and what they need to do to get from A to B. There's no opportunity like this to be able to do something like that
