

PAUL CASEY (-10)

Q. Now you're heading to the weekend. Your thoughts on how you played today?

PAUL CASEY: Can I get two more of those? I'm going to need them, aren't I?

I felt like, you know, I've got this kind of number of 20s in my head that I need to kind of get there, because somebody's going to get there this week. So I'm happy with another 65, I'm happy we got finished yesterday, I'm happy we didn't get any rain today.

A joy playing with Jordan and Charles. I thought all of us were going to finish on the same score. Yeah, this is a great event, I love being here, so I think it's reflecting in the scores.

Q. I was going to ask you about that. When all three players are really playing well, that's just got to help the whole mindset of what's going on out there?

PAUL CASEY: Yeah, Jordan was making the hole look like a bucket, at least for him anyway, maybe not for me. It was great. We were all doing great things and there was energy, without question. I mean, it's a nice position to be in as long as you're getting dragged along and you're not the odd one out, but it certainly helps. And I know I've got to continue to play that kind of golf if I want to beat those guys because Jordan's playing some great golf, which is great to see. Charles is always up there, and there's other great names on that leaderboard, so it's going to take a lot of continued good golf.

Q. A lot of rain on the golf course last night, a lot of overcast for you guys to play this round, and how different did it play out there compared to Thursday?

PAUL CASEY: Well, I have to -- hats off as always to the grounds crew and all the staff that put this event on. We had bridges out there that were washed out today, we were taking different routes to try to get onto fairways, so amazing credit to them. The course was -- it just played a little longer. The greens are still impeccable. We're playing preferred lies, lift, clean and place, which is only fair. Otherwise we'd up with mud golf balls flying all over the place. But it played brilliant. I think we had maybe nine inches of rain in the last couple of days. Hopefully, that's the end of it. I don't think it is. But yeah, everybody who runs this, yeah, those poor guys who probably got up at like 3:00 a.m. to put this golf course back together did a great job.
