

HAROLD VARNER III

HAROLD VARNER III: That's my thing. When you can play golf and make money for other people, I'm in.

Q. Harold, nice job, congratulations on the win today with Bubba. Talk a little bit about it, I mean the whole day really.

HAROLD VARNER III: I mean, the cool thing is, Bubba was riding in his car and he was like, "Would you play?" I'm like, "Yeah, I'll play." But as it got closer to things we were doing, I just thought it was really cool that what it's about. I just couldn't remember not having internet growing up. Like some kids had internet and then we got it like a year later, but like I couldn't imagine being in high school and not having internet.

Just a great cause and I'm just happy to be part of it, and Rocket Mortgage just setting it up. They're obviously doing a great job here just seeing how the city's grown just in the past year, especially since the COVID and everything. Just super excited to be a part of something bigger than me.
