

MATT WALLACE (-6)

Q. Nice way to finish there, 6 under par on your first round. How would you assess that round?

MATT WALLACE: It was a good one. I didn't play very well off the tee, so going to go to the range now and sort that out, but when I was in position, I kind of took advantage. New putter this week, so worked hard on that on the putting green and it seems to have paid off.

Q. So when you missed a fairway today, were you in positions at least where you could advance the ball, get up around the green and get it up and down?

MATT WALLACE: Kind of, yeah. I was hitting it left off the tee, which I generally don't do, I hit a fade. today I was hitting it left so couldn't really counter it as much, so going to go work on that. Loads of chances out there if you're in position, and the greens are fantastic and scoring's really low and I expect it to be low if it stays like this with the weather. So yeah, if I can get that nailed down, I'm pretty comfortable on the greens at the moment.

Q. Other than the driver, seems like the game you had today, very similar to what you had at Hilton Head.

MATT WALLACE: Yeah.

Q. Do you feel that same way?

MATT WALLACE: Absolutely. I think I said then it was the best I was playing and I wasn't putting very well, and now you get the putter back and this game's all about putting. I kind of forgot it over time, but this game's all about putting. Yeah, got the putter going and able to shoot a score.

Q. Is it good just to kind of be able to focus on golf now after last week?

MATT WALLACE: Absolutely, yeah. I would say this round's for Radar. I just went out there and played. So with his comments of me just trying to shut up and go out and play, this one's for him.
