

DOC REDMAN (-9)

Q. Doc, how would you compare the last two days, the last two rounds?

DOC REDMAN: Yeah, I think today just some things didn't go my way. I thought I played well for a little while and kind of got in a rut in the middle of the round and wasn't in maybe the right mindset to play well, but it was really cool to make some birdies coming down the stretch. You know, it wasn't great, but it could have been worse, so that's how golf goes.

Q. When you get into one of those mindsets where maybe you're not thinking the right way, how do you kind of work your way out of it and then obviously, as you say, come back and have a good final stretch?

DOC REDMAN: Yeah, I guess just like made some bogeys and just kind of hit me upside the head that there's just no reason to do what I was doing. I just needed to let things happen a little bit. You know, I did that, I think I did that well at the start and I did that well for the last eight holes. Just in the middle, got in a rut. But, you know, it happens.

Q. You have such good memories from this tournament last year. Will you kind of use those memories as you go into this weekend obviously in contention and try to pick up that first win?

DOC REDMAN: Yeah. I think the first two days I was 9 under last year, too, and I think it's playing even more difficult. So this is a lot better position than I have been this year, you know, being whatever position I am after two days. So I don't think there's any reason not to be optimistic and positive about the last two days and the first two days.

Q. Lastly, what do you draw on when you go into a weekend in contention from the past, obviously U.S. Am champ and everything?

DOC REDMAN: Yeah, I think the last two weekends that I've played have been really nice and I've done that in the past, too. It hasn't been anything special, but it's just me being patient and playing good golf, and when you add it up at the end, it turns out pretty good.
