

J.J. SPAUN (-9)

Q. J.J., 3-under 69 today. How would you assess how you played out there?

J.J. SPAUN: Pretty solid. Just kind of didn't really take advantage of the front nine, was still kind of half asleep, so was the putter. Kind of a nice little run on the back nine, was able to make it a decent round.

Q. Was it kind of similar to your round yesterday where you kind of got a run there kind of late in the round?

J.J. SPAUN: Yeah. I think there was like 12 or 13 left pins today and I like to fade the ball, so it was a little harder I think than maybe yesterday as far as getting the ball close enough to make putts, I feel like, especially with some of those pin placements were like scoring clubs and drawing the ball isn't really my choice of shot shape. If I was able to take advantage of the opportunities that I had out there.

Q. You obviously definitely lost some weight, got yourself in a little bit better shape over the last year. Has that changed your swing at all, changed kind of how you go about swinging the golf club?

J.J. SPAUN: Oh, yeah, 100 percent. I struggled for about a year and a half and I finally have started to gain some confidence in what I've been working on. The feels definitely didn't translate from my old anatomy to what I have now, so it's been a real learning curve about the last 18 months, almost two years. It's nice to finally see some things starting to click and come together.
