

ROUND 3 INTERVIEW
August 15, 2020

SI WOO KIM (-18)

Q. Si Woo, how would you characterize that round?

SI WOO KIM: Yeah, it's very good round for me and then not expect this much low, shoot low, but it definitely help. And then I try to kept pushing myself, that's why I can finish good round.

Q. Let's talk about that ace on 3. What could you see after the shot landed and when did you know that it went in?

SI WOO KIM: So I just hit it and then ball goes just right at the pin. That would be good, if number's good, that would be good. I not expect that ace, but some guys yelling me and I feel like just tap-in really close and some TV guys told me that's ace and I was so excited.

Q. Let's talk about the near ace on 12. How did that one stay out?

SI WOO KIM: Yeah, that one's a little expect for ace and then just little missed right, but that was really tough hole and really thankful made that birdie.

Q. What is it about this course that you enjoy so much and how much will the memories of your win a few years ago help you tomorrow?

SI WOO KIM: This course, just kept hitting the fairway and then that's more easier like a second shot, that's the most key here. And then greens tough, but if not miss short-side, not a big trouble. Hopefully, tomorrow a little bit of pressure, but I'm going to keep fighting and hopefully get a win.

Q. How low do you think you'll need to go tomorrow to win?

SI WOO KIM: Maybe a lot, but I don't want to think about the score because like if I think like start before I have to shoot 6 under, 7 under, that's too much pressure. Just keep my playing and then hopefully, yeah, go low.

Q. Does it feel like it's been a long time since you've had a victory?

SI WOO KIM: Yeah, it's been a while, like two years. I don't know, I can't remember. Then I have every year a little bit of chance last three years, but I miss it. Hopefully, I can get win this time.

Q. How much better is your game now than when you won here the first time?

SI WOO KIM: Yeah, that year's like this year. Driving, every shot fairway and then every shot close to pin, every putt make the putt. I feel like pretty similar this year.

But that year I have no win before that and that's why more pressure, but this time I already win two times, so that's the good experience for me. I can still feel pressure for tomorrow, but I can get this one.
