

**TAYLOR MONTGOMERY**

---

**Q. When your name comes up, you've got the Diamante Cabo San Lucas on the left part of your shirt there. What's your tie to this property?**

**TAYLOR MONTGOMERY:** Just met Ken through Shadow Creek out there in Vegas, so everything kind of does come back to Vegas. It's been a really cool relationship. He's one of the best guys I've ever met. What he's doing with this property in the next 10 years is going to be unbelievable.

**Q. What was the buildup like to this tournament from when you first met Ken and now you're going to get to tee it up here at a PGA TOUR event?**

**TAYLOR MONTGOMERY:** Yeah. I mean, last year was the first year that I came down here and kind of visited the property. He's like, hey, we have a pretty good chance of having a golf tournament at Tiger's course. I'm like, that would be awesome. And sure enough, next year, here it is.

**Q. For those who haven't seen the course, first time on the PGA TOUR we're getting a Tiger Woods design, how would you describe what the layout's like?**

**TAYLOR MONTGOMERY:** This course specifically is more desert golf, pretty big fairways and a lot of undulation around the greens. You can get some easy green complexes into like some bowls and then on other holes you can get some really big fall-offs and you're chipping 10, 15 feet above you. It's a variety of pretty much everything.

**Q. What will it be like for you as a guy who grew up watching Tiger and now you're playing at a course that he designed, and he was here earlier this week touring the property?**

**TAYLOR MONTGOMERY:** Yeah, no, it's really cool. It's a guy that you've idolized your whole life. Sat Down and had lunch with him yesterday with Ken and you just get to learn a lot of really cool things from the greatest ever to do it.

**Q. Did he give you any of the lay of the land as far as what to look for?**

**TAYLOR MONTGOMERY:** No, no. He's pretty secretive when it comes to golf, which I respect that because he's put in a lot of work to create his own craft. You've really got to nitpick him to try to get some stuff out of him.

**Q. For the week, you're talking with different guys, right now not super windy. A lot**

**weeks, I mean, they had a hurricane here a week and a half ago here in Cabo, which is crazy. Touring the property, you can barely tell.**

**TAYLOR MONTGOMERY:** Yeah.

**Q. Your expectations for what a winning score could potentially be when it's all said and done?**

**TAYLOR MONTGOMERY:** Well, obviously this course is very wind dependent. If there's no wind, it's going to be pretty low, but if it gets windy, it's obviously a heavy wind being here at sea level, it can -- if there's no wind, it's going to be 20-something under, I would say.
