

ROUND 2 QUICK QUOTES

October 26, 2024

CAMERON PERCY (-9)

Q. Cam, thank you for joining us here today. Just want to talk through the round. Obviously the rain, you said you didn't get much of a chance to warm up.

CAMERON PERCY: Yeah, I hit probably eight or nine wedges and then it started pouring and it kept pouring and pouring. It looked like we were going to get drowned, so we literally went to the first tee and my first wood with a 3-wood off the first, which wasn't very good, my first drive wasn't very good. So I was pretty happy to turn it around and play pretty nicely.

Q. And with your play today you've been able to kind of work your way into the 36, you're right on the bubble right now. Was that your mindset coming into this week was try and make sure you get to the Schwab Cup?

CAMERON PERCY: Yeah, absolutely. Just this year I started so far back, I thought it would be a good year like in the top 36, so if I can do that next year I'll be exempt in everything and I won't have to worry about qualifying or anything like that. So I thought coming into this week, if I could somehow do that, it would be a pretty good effort.

Q. And I know you're keeping an eye on the bubble. You have a friend there alongside you on the 36. How excited would you be for both of you guys to get there?

CAMERON PERCY: Oh, it would be pretty amazing, wouldn't it? After last week, had dinner with him every night last week, he wasn't in the top 54. For him to be in this position as well, and me, it's pretty cool. It would be nice if we finished 35, 36 tomorrow, that would be a pretty cool experience.

Q. And you mentioned starting the year a little bit later with not turning 50 until partway through the season. Kind of how much pressure did that put on you from your perspective on trying to catch up for the events you missed?

CAMERON PERCY: A lot because when I got out here, I played with some of these guys before on the PGA TOUR and they were really good. They're still really, really good. Everyone was like, oh, you'll kill it out there. I'm like I'll hit it past 'em, but they're unbelievable still. It's been really hard. And the money, everyone makes money, there's no cut and that sort of stuff, so you've got to finish really high to do anything. It's been way harder than I expected.
