

**ROUND 4 QUICK QUOTES**  
**October 27, 2024**

**JUSTIN THOMAS** (-19)

---

**Q. Justin, not the result that you wanted. Can you just tell us about your emotions right now and how you're feeling?**

**JUSTIN THOMAS:** Yeah, it's a mixture of obviously bummed and disappointed, but I played so well. I played plenty well enough to win the tournament. Hit so many good putts today that just didn't go in, that's the difference. I needed some of those ones that burned the edge to fall.

But no, I mean, I gave myself a chance. I would have really loved that putt on 17 to fall just to be tied for the lead. I felt like being one back of two people coming into 18 is a tough task to accomplish. I did a lot of the things really well. I made one bogey in 72 holes and had a great chance, just wasn't my week.

**Q. This is the second time you finish runner-up at this event. What are you going to take from this result?**

**JUSTIN THOMAS:** A lot of positives. The stuff I've been working on, everything I've been doing is obviously the right stuff and I'm still going the right direction. Just got to keep trying to put myself in contention and right there as often as I can. Just kind of hope for a law of averages thing, eventually you end up getting it done, but it's just about putting yourself there more.

**Q. As mentioned, it's your second ZOZO event since 2019. How were the Japanese fans out there today?**

**JUSTIN THOMAS:** They were great. The Japanese fans all week were awesome. I wanted to obviously win it for myself, but I felt a lot of support from the fans out there, so it would have been cool to get it done I feel like for them a little bit.

I always am very gracious and happy to be able to come and play in front of the Japanese fans and they're always so nice, so hospitable. It's always a treat to be able to come here and play.

**Q. With ZOZO being the last year, do you wish to come back and play again in Japan?**

**JUSTIN THOMAS:** For sure. I think any of us, we love the opportunity to get to play at different places let alone a completely different part of the world. Yeah, it's not only an opportunity for us to play different golf courses in front of a different, you know, setting and

grow our brand and kind of have the opportunity to grow the game of golf, but it's an opportunity for us to travel and see some great places and compete in different -- in a completely different part of the world, so it's always a treat.
