

**East Lake Cup Women – Match Play**  
**October 29, 2024**

**JOSEFIN WIDAL**  
**LSU**

---

**Q. Here with Josefin Widal from LSU and Taylor has the first question.**

**TAYLOR RILEY:** Oh, I have to make it up? How were you feeling standing on the 16th tee today knowing that you guys had one more -- well, that you were tied?

**JOSEFIN WIDAL:** I was really nervous and I knew -- or do you mean --

**TAYLOR RILEY:** Or 15, when you were tied.

**JOSEFIN WIDAL:** So when Garrett told me Elsa lost her, I got so nervous because I knew it was everything on me, but I just like enjoyed it, enjoyed the situation that I had and just tried to hit my good shots and win for you guys.

**TAYLOR RILEY:** That's cute.

**Q. And on 16 green when Taylor and your whole team came and gave you a hug --**

**JOSEFIN WIDAL:** Yeah, that was crazy.

**Q. -- how was that? Was that a big sense of relief?**

**JOSEFIN WIDAL:** Yeah, it was, it was. I was so nervous, I was shaking when I was going to make my putt. And when I just like turn around and saw my whole team being happy for something I did, it was like so nice. I got teared up and I was like, oh, don't cry because it was big.

**Q. And then you got to see yourself on TV. How is that watching you on TV knowing that you clinched the win for LSU?**

**JOSEFIN WIDAL:** It was really cool. I haven't played on TV before, or Blessings but this is my second, second, what is it?

**TAYLOR RILEY:** Time.

**JOSEFIN WIDAL:** Time. It's just super cool to everyone can see it. It was kind of weird seeing myself play, but it's fun.

**Q. Last question, because you were hanging out in the 18 fairway when she was**

**taking forever to hit her shot, what was going through your head because you knew you had to win the hole?**

**JOSEFIN WIDAL:** Exactly. So I was really nervous, but I knew that I had a better chance to win the hole than she was and I was just trying to make a good 3-wood and then hopefully make a par, because she would have a hard time to make a par from there. And yeah, it worked.
