

ROUND 2 QUICK QUOTES
June 20, 2025

TIM PETROVIC (-5)

Q. All right, Tim, 4 under and currently tied for the lead, assess your round and how confident you are going into the weekend.

TIM PETROVIC: Yeah, I've been hitting it well the last few weeks and I just haven't had much to show for it because I haven't really had many putts. Then made a couple long putts early, I'm like, oh, wait a second, maybe we've got something going here. Made a really nice save on 8, didn't hit a really good approach shot. That was kind of a long par putt. You need to make a couple of those just to keep your round going, but to get your round going early, make a few birdies and that's what I did today.

Q. What's it feel like when you know you've got it going, especially around here?

TIM PETROVIC: I'm not sure. Do I know -- do we know we have it going when we have it going? Just pretty much I just want to see some putts go in. I'm hitting it good, I'm driving it good, everything else is there. Just you're not making putts, it gets a little frustrating but just got to try and stay the course and see what happens.

Q. Seven birdies around this place is pretty damn good.

TIM PETROVIC: It's playing tough, the rough's up. With the rain we had, it's playing really long. Yesterday was almost impossible to break par because the squall came through. Just started hitting greens, didn't make a lot of putts yesterday but with the weather wasn't really expecting it. But yeah, seven birdies today, I'm really pleased with that. Anything over 20 feet, you see a few of those go in is a bonus.

Q. How do you like this course? How many times have you played here, Tim?

TIM PETROVIC: I've played here a few times, which means I'm not the rookie out here. I'm 58 years old, so this is probably my eighth one here, my seventh or eighth one.

You know, it's such a beautiful property, this is one of my favorite courses. There's three courses here and every course is like they keep it the same all year round, so we know what to expect when we come here, great greens, great conditions, so it's nice.
