

COMPLIANCE SOLUTIONS CHAMPIONSHIP

ROUND 4 QUOTES

October 4, 2026

SANDY SCOTT (-24, won playoff)

Q. Sandy, back-to-back wins now. I guess maybe take us through the playoff there and just everything for that.

SANDY SCOTT: Yeah, that's my first professional playoff. I mean, there's feelings that were maybe, I mean, similar to what I've played under but maybe slightly elevated. It was just so fun. Four holes as well, it was strung out. But yeah, I think I stuck to my process and hung in there. Yeah, super delighted to get the win.

Q. You walk off 18, go to scoring. I guess what's going through your mind kind of knowing you might be one back and you just have to wait and see what happens?

SANDY SCOTT: You kind of have to stay switched on, I think, doing the scorecard, kind of go straight to the range just to get away, stay loose and just wait to see what happens.

Yeah, I got to be as prepared as I can for the playoff so that's what happened. Yeah, it was kind of nice, allowed me to hit some shots on the range that I was preparing for just two holes out here, so felt like that helped me get ready.

Q. We've talked a couple weeks just how strong your game's been. Is it still just a little bit surprising just how consistent it's been this last stretch or it finally feels like it's paying off?

SANDY SCOTT: Yeah, I think my golf has felt good for a while. Like I'd say the results have started to come in recently in kind of grand fashion. I feel like it's been just right there for a long time, but yeah, to have won the last two weeks is pretty special.

Q. You're going to jump up to No. 1. We talked the other week, that was kind of your goal now. Going into Richmond, what's kind of the thought process knowing that Ross or someone else is going to try to jump up there, too?

SANDY SCOTT: Yeah, same thing. I think I came into this week with kind of a blank slate in my mind, like I'm trying to do the same stuff, play the same golf, commit to shots. The conversations that me and my caddie have, tried to be as consistent as possible. So just going to take that into next week and see where we end up.

Q. You've credited your caddie being a big part of your success. What's been the biggest influence he's had on you?

SANDY SCOTT: Chris is great in so many ways. His demeanor in situations like the playoff, nothing changes. I can't even tell what he's feeling any different. That allows me to kind of remain calm and just commit to the same stuff.

He's an excellent golfer, like I think that brings a really unique element to just understanding my game, understanding the game. Yeah, I lean on him a lot. He gives me great reminders to just stay inside our bubble and keep going. I can't thank him enough.

Q. I guess back to that putt on 18 to win, was it relief that the playoff was over or excitement for you?

SANDY SCOTT: I was pretty delighted when the putt went in. There was probably some relief there as well. It was a long day. I mean, four playoff holes, I don't know, there's probably stuff coursing through my body right now that's never been there. It was a long day but a great day.

Q. Going back three years ago, PGA Tour Latinoamerica grinding at the lowest level, did you ever imagine three years ago that you would be here, back-to-back champion and also heading to the PGA Tour?

SANDY SCOTT: It's crazy to think. I think I always had the belief I can do it and that's why we all tee it up. I think that's where we all see ourselves going. Yeah, the belief is a big part of this game.

To do it in this fashion is pretty special. I'm proud of the fight to get here. I'm grateful for the support that I've had to get here.

Yeah, looking back on those times is pretty neat.

Q. If we go back even a couple months ago, we talked earlier in the week and you said there were times that you thought you wouldn't be able to play golf again. Can you just speak a little bit about the journey and how rewarding it is to be here, standing here today?

SANDY SCOTT: Yeah, it's amazing. I've gone through some ups and downs, injuries and whatnot, and yeah, when it first flared up in college, it took a couple surgeries and some steroid injections and I was out for the best part of two years.

Yeah, it took a lot of perseverance and help. I mean, a couple months ago it flared up. I kind of did the right things and let it heal, came back feeling good. I think it will just be a case of that like management for -- well, could be forever, I don't know. Yeah, I know what helps it and hurts it now. I feel good now though.

Q. You're getting some practice though with learning how to be careful lifting

trophies. That's not a bad deal.

SANDY SCOTT: No. That's a very heavy trophy as well, got to keep a straight back. No, I'm delighted. I mean, yeah, to win the last two weeks, it's just kind of crazy. I don't know if it will sink in for a while yet, but I'm very happy.

Q. How much did having almost the same exact putt help you on that last hole?

SANDY SCOTT: It's so funny, it was almost the exact same. I don't know if somebody can check that. Like I played it the exact same break that I did the first putt. So it's funny, I'm going to give Russell a shout-out here, he holed two exact same putts to win the Irish Open and it almost felt eerily similar to that. Maybe he helped me in that way, I'll give him credit.

Q. The playoff, obviously William being a local kid, he had a lot of people cheering for him. Did that help you, too?

SANDY SCOTT: I think the fan base here is just so fantastic and him being local and competing in this event at such a high level, I respected that immensely and I respect the fans.

I don't think -- I think all I was trying to do was just stay focused and kind of play in a manner of sportsmanship and just conduct myself as well as I could. Yeah, very excited to get the win.

Q. One last one. You know you have to go low at a place like this to give yourself a chance, but how much was patience involved today especially?

SANDY SCOTT: Yeah, it's a very interesting golf course because the greens are kind of waiting for you to attack, but there are some shots, especially tee shots that will make you very nervous. So it was kind of a blend of like you have to stay focused and be disciplined at the right times and attacking others. Yeah, it's a very good golf course for that.
