ROUND 2 QUICK QUOTE
November 6, 2026

ZAC BLAIR

World Wide Technology CHAMPIONSHIP

Q. Zac, 4 under today but 12 under through 36 holes. I guess what was the difference between yesterday and today?

ZAC BLAIR: Just missed a couple putts today that yesterday either they were closer or whatever, but just kind of had two or three that felt like I should have made but didn't.

Yeah, it was still a really good round. Played nice both days.

Q. Fall is kind of winding down. You said yesterday you're kind of used to being in the position of fighting for position. I guess at what point did that like become normal or does it become the norm? Is that just kind of the standard for you?

ZAC BLAIR: I don't think anybody wants it to be the normal, but it's better than being worse, I guess. I was telling them over there, I've been on kind of both sides of it, succeeded and failed, so hopefully can have a kind of good finish to the season and take care of business.

Q. Good position during the weekend. Anything you want to fine tune before entering the third round?

ZAC BLAIR: Not really. Just keep doing the same stuff and hopefully can keep hitting it well and making a couple points.

Q. How different does this course play morning to afternoon wave?

ZAC BLAIR: I mean, it all just depends on the wind. The wind wasn't crazy yesterday afternoon and was nothing this morning for the first five or six holes, then it kind of picked up and got pretty gusty the last hour or so.

I mean, I think it's more wind versus no wind versus morning, afternoon, because there are days I think that it doesn't blow and there are days where it rips.
